Why “GREEN CROCS EAT ANTS”?

Because...

- 🎸 It's simple and fun to learn... Kids get it!
- 🎸 It's sequential and scaffolded...
- 🎸 It's relevant and memorable!
- 🎸 It's about MUSIC, not just chords...
- 🎸 Students at any age can learn how to improvise, compose and perform!
- 🎸 Concepts are transferrable across your existing Music program...
- 🎸 Skills line up with A.C. (Arts) standards

For more information about “Green Crocs Eat Ants” pedagogy, resources, or to discuss workshops for teachers or student groups, please phone or email ...
“Got uke, will travel!”

Find out through a practical workshop, including sessions on:

Junior/Beginner Programs:

Aimed at classes as young as Grade 1 (but still fun with older beginners!), this holistic program features original songs, games and resources to begin or complement your ukulele/classroom pedagogy!

Senior/Advancing Programs:

Following on from the basics in the Junior session, we explore using ukes to complement your existing senior primary/early high school curriculum (with tips for ‘senior beginners’), including genre specific content and repertoire!

Songwriting/Composition:

Where do musical ideas come from? Which comes first – chords, lyrics or melody? How do students make sense of these rules to write a great song? Designed for Upper Primary/Secondary classes.

Sessions for student groups available by request.
